

# Construct & Combat

A strategy card game where you have to find the balance between war and construction

1-4 Players

25-30 min

12+

PvE/PvP  
Co-op/Solo

## Premise

A world ravaged by war. Players take the role as rulers of kingdoms, and as such need to put their peoples happiness first. How can you recover after the destruction of war, especially when there is one kingdom who relentlessly tries to tear the rest down?

The players need to protect their kingdoms, while balancing the cost of war and improving the infrastructure in their kingdoms in order to create happy citizens.

Can you become the ruler your kingdom needs?

## Objective

Players accumulate Citizen Points, build infrastructure or defend themselves and attempt to accomplish secret missions while the enemy attacks each turn.

A game of war and creation that combines skill and luck.

## Components

- 36 Construct cards
- 20 Secret mission cards
- 20 Enemy cards
- 33 Resource cards
- 4 Citizen point counters
- 1 Combat action sheet
- 4 Cheat card
- 1 Dice

## Premise

*A world ravaged by war.*

*Players take the role as rulers of kingdoms, and as such need to put their citizens happiness first. How can you recover after the destruction of war, especially when enemies relentlessly tries to tear your kingdom down?*

*The players need to protect their kingdoms, while balancing the cost of war and improving the infrastructure in order to create happy citizens.*

*Can you become the ruler your kingdom needs?*

## Components

20x enemy cards	1 dice
33x resource cards	1 combat action sheet
36x construct cards	4 cheat cards
20x secret mission cards	4 citizen point counters

## Objective:

**Win:** If a player reaches the goal amount of *citizen points* of the game mode, the game is over and the points are calculated (if the game mode have *secret missions*, those points are calculated as well).

**Lose:** If the Enemy runs out of cards the game is over, and you lose.

### PvE & PVP (2-4 players)

Playtime: Approximately **30-35** min

Win condition: **15 Citizen Points**

Enemy cards: **15**

Always draw 2 cards at the start of your turn (max on hands is 5)

### Solo mode

Playtime: Approximately **15** min

Win condition: **25 Citizen Points**

Enemy cards: **10**

No combat actions or secret missions

Always draw 2 cards at the start of your turn (max on hands is 5)

### Co-op (2 players)

Playtime: Approximately **20-25** min

Win condition: **20 Citizen Points**

Enemy cards: **10**

No combat actions or secret missions

Always draw 2 cards at the start of your turn (max on hands is 5)

## Setup

Prepare the playing area by putting up 3-5 *construct* cards (decided by the number of players +1) in a market row in front of the *construct* deck.

This row is replenished at the start of every players turn, so you always have 3-5 cards to choose from. Shuffle the *resource* deck and deal 3 cards, and 1 *secret mission card* to each player.

## PvP/PvE rules

### How to play

1. Replenish the amount of *construct* cards on the market row (3-5 depending on the number of players). There should always be +1 card on the market than the number of players. The player draws 2 *construct* cards (max cards on hand is 5, not including the *secret mission*).

The player can then take one of the following actions:

- a. Purchase a *construct* card from the market row by paying it's cost stated on the card (by discarding cards in their hand). The player may buy multiple *construct* cards in one action.
  - b. The player may also attack another player during its turn by paying the specified cost on the combat action sheet. In the combat sheet there is also a defend action the player can perform, if the enemy or another player attacks.
  - c. Change the *secret mission* by drawing one from the deck.
  - d. Draw 2 extra *resource* cards from the deck (if you have less than 5 *resource* cards in your hand).
2. When a *construct* card is purchased, it is placed face up in front of the player. Apply the points stated on the card, if there are any. You may use its special ability at the earliest next turn.
  3. When every player has taken a turn, the enemy takes its turn. It pulls out an *enemy* card, and then the players use a 6 sided dice to see if that action takes place or not. 1-2 = miss, 3-6 = hit.
    - a. The enemy attacks all of the of the players.
    - b. The players can block the action with their *resource* cards, specified on the *combat action* sheet on the board, or suffer the consequences.
  4. If a player gets to 15-25 *citizen* points (depending on how many players there are playing) the game is over and the points from the *secret missions* are calculated. If the enemy runs out of cards the game is over, and you lose.

## Solo rules

### How to play

Replenish the market row so that 2 *construct* cards are turned face up.

The player draws 2 *resource* cards.

The player can then take one of the following actions:

1. a. Take a *resource* card from the market row by paying it's cost (by discarding cards in their hand). You may buy multiple *resource* cards in one action.
  - b. Draw 2 *resource* cards from the deck (if you have less than 5).
2. When a *resource* card is built, it is placed face up in front of the player. Apply the points stated on the card, if there are any. Next turn you may use its special ability.
  3. After the player turn, the enemy takes its turn. It pulls out a *enemy* card, and then the player use a dice to see if that action takes place or not. 1-2 miss. 3-6 hit. The player can choose to block the action by paying it's cost with *resource* cards, or suffer the consequences.
  4. If the player gets to **25 citizen points**, the game is over. If the enemy runs out of cards the game is over, and you lose.

## Co-op rules

### How to play

Replenish the market row so that 3 *construct* cards are turned face up.

The player draws 2 *construct* cards.

The player can then take one of the following actions:

1. a. Take a *resource* card from the market row by paying it's cost (by discarding cards in their hand). You may buy multiple *resource* cards in one action.
  - b. Draw 2 *resource* cards from the deck (if you have less than 5 cards).
2. When a *resource* card is built, it is placed face up in front of the player. Apply the points stated on the card, if there are any. Next turn you may use its special ability.
  3. After the players turns, the enemy takes its turn. It pulls out a *enemy* card, and then the player use a dice to see if that action takes place or not. 1-2 miss. 3-6 hit. The player can choose to block the action by paying it's cost with *resource* cards, or suffer the consequences.
  4. Whenever a player gets to **15 citizen points**, the game is over, and you both win. If the enemy runs out of cards the game is over, and you both lose.
- 

## Reference notes

- If you run out of *construct* cards to draw, shuffle the discard pile.
- If you run out of *enemy* cards the game is over and you lose.
- If it's a draw, the one that completed the most *secret missions* wins.
- If you complete a *secret mission*, put the card face up in front of you and draw a new one from the deck. The points will be scored when the game is over.
- If you spend a card with more resources than you buy, that extra resource is lost.
- If you can't draw cards from the *resource* deck due to your hand limit, you don't draw any cards.
- If you are at 0 CP and get the prompt to remove more CP and if you can't block the attack, discard a *resource* card in your hand.

## Rules PvP

1. Player turn (see other side).
2. When a *construct* card is purchased it's placed face up in front of the player. Apply the points stated on the card, if there are any.  
Next turn you may use its special ability by discarding the card.
3. When every player has taken a turn, the enemy takes its turn. It pulls out an *enemy* card and the players use a 6 sided dice to check if it hits.  
1-2 = miss, 3-6 = hit.
  - a. The enemy attacks all of the of the players
  - b. The players can block the action by paying the cost of the block with the *resource* cards by discarding them, or suffer the consequences.
4. If a player gets to **15 citizen points** (CP) the game is over and the points from any completed *secret missions* are calculated.  
If the enemy runs out of cards the game is over, and you lose.

### Notes

- If you run out of *construct* cards to draw, shuffle the discard pile.
- If you run out of *enemy* cards the game is over and you lose.
- If it's a draw, the one that completed the most *secret missions* wins.
- If you complete a *secret mission*, put the card face up in front of you, and draw a new one from the deck. The points will be scored when the game is over.
- If you are at 0 CP and get the prompt to remove more CP, discard a card instead.

## Rules PvP

- If it's a draw, the one that completed the most *secret missions* wins.
- If you complete a *secret mission*, put the card face up in front of you, and draw a new one from the deck. The points will be scored when the game is over.
- If you are at 0 CP and get the prompt to remove more CP, discard a card instead.

## Turn order PvP

1. Draw 2 *resource* cards.
2. Always flip 3-5 new *construct* cards placed on the market row, face up.  
The amount is decided by the number of players +1 (eg 2 players = 3 *construct* cards).
3. Take one of the following actions:
  - a. Buy a *construct* card from the market row.
  - b. Pay to perform a *combat* action.
  - c. Change the *secret mission* by drawing a new one from the deck.
  - d. Draw 2 extra *resource* cards from the deck.
4. Use an already purchased *construct* card ability by discarding it (does not count as an action).

### Remember:

- The *resource* card limit for your hand is 5 (*secret mission* not included).
- You buy cards by paying the cost (discarding *resource* cards on your hand).
- You may buy multiple *construct* cards on your turn.
- You may discard an already purchased *construct* card to use its ability any time during your turn (does not count as an action).
- You can use the *construct* card abilities at the earliest the turn after you purchased them.

## Turn order PvP

1. Draw 2 *resource* cards.
2. Always flip 3-5 new *construct* cards placed on the market row, face up.  
The amount is decided by the number of players +1 (eg 2 players = 3 *construct* cards).
3. Take one of the following actions:
  - a. Buy a *construct* card from the market row.
  - b. Pay to perform a *combat* action.
  - c. Change the *secret mission* by drawing a new one from the deck.
  - d. Draw 2 extra *resource* cards from the deck.
4. Use an already purchased *construct* card ability by discarding it (does not count as an action).

### Remember:
